# **Extended** call for papers

## The *Ulrich Schiessl PhD Colloquium*

### in cooperation with

## *the Nordic Conservation Programmes Network*

### Copenhagen 21 – 22 November 2019

*We have still a few places left for the PhD Colloquium, please note that participation is restricted to PhD students presenting their projects and their supervisors*

The Royal Danish Academy for Architecture, Design and Conservation (KADK), School of Conservation in cooperation with the Nordic Conservation Programmes Network and the ENCoRE Ulrich Schiessl Ph.D. Colloquium is pleased to announce the European Conservation PhD Student Colloquium for current PhD students in conservation training institutions.

#### Background

The access to PhD-study programs for conservator-restorers is still rather new in most European countries. The first academic educational institution in conservation-restoration started teaching as early as 1933 in England, but only on the turn of the 20C academic study programmes began to admit conservator-restorers to PhD studies.

ENCoREs PhD Colloquiums have been held since 2008 and were first known as 'The Oranienbaum Colloquium', but after the sudden and unexpected death of Ulrich Schiessl in summer 2011, the Board of ENCoRE decided to rename the colloquium, in honour of its initiator, to Ulrich Schiessl PhD Colloquium.

Within the Nordic Conservation Programmes similar colloquiums have been held annually since 2003.

#### Scope of the PhD Colloquium

The aim of the colloquium is to give postgraduate research students the opportunity to present and discuss their current research with their peers and programme faculty, and to benefit from such an exchange. It will allow sharing of ideas and information amongst PhD candidates and programme faculties in an informal environment. The colloquium seeks to create a European forum for debate and exchange of ideas in research with relevance to the conservation / restoration of cultural and natural heritage and archaeology. Furthermore, it provides a venue for PhD students to meet, interact and form future collaborations with other PhD students. The colloquium is open only to current PhD candidates of all disciplines within conservation, their supervisors and other academic staff involved in research training in the European conservation programmes.

All current PhD candidates who wish to participate must give an oral presentation in English (20 min.) of the progress in their current PhD research within conservation-restoration. Those who have attended in previous years are encouraged to present an update of their research.

All presenters are asked to submit an extended abstract (300-500 words) for circulation to the participants in advance of the meeting in order to provide for discussion of presentations.

Contributions will be selected by an academic committee based on the abstracts received.

The language of the colloquium will be English, according to the working language of ENCoRE.

## Registration and submission of Abstracts - *extended deadline*

Registration must be done before 09.10.2019 to secretary Karen Margrethe Laursen: klau@kadm.dk

The registration must contain the following information:

- "Conservation PhD Colloquium"
- Participants full name
- University
- Supervisor(s) name (Participating supervisor(s) must be marked with \*)
- (Expected) Submission Date
- Telephone Number
- E-mail address
- Title of thesis
- Key words

The deadline for submitting the abstract (300-500 words) is extended to: 09.10.2019. Abstracts must be submitted in Word Format to secretary Karen Margrethe Laursen: klau@kadm.dk

## Venue

The Royal Danish Academy of Fine Arts Schools of Architecture, Design and Conservation.

Philip de Langes Allé 10

1435 København K

Denmark

## Grants

The Board of ENCoRE has decided that the participating PhD candidates are entitled to receive a grant to cover travel expenses.

This grant is limited to 250.- € and may cover transport and accommodation; with payment following submission of tickets etc.

## Publication

Following the colloquium the Board of ENCoRE offers the presenters the opportunity to submit an academic paper on an aspect of their PhD research. The paper as submitted must have been reviewed and approved by your PhD supervisor, and proofread for English. Accepted papers will be published in a Journal.

# *Announcement*

The next ENCoRE Conference and General Assembly will take place at

Escola das Artes - Universidade Catolica Portuguesa

in May 2020

Further information will follow as soon as possible.
